

CoviSelf™

COVID-19 Rapid Antigen Self Test Kit

mylabglobal.com

Protect your loved ones with CoviSelf.

 1 MIN. TO TEST
15 MINS. TO RESULT

INDIA'S
FIRST
COVID-19
SELF TEST
KIT

COVID-19 Rapid Antigen Self Test Kit

India's first COVID-19 test kit for self-use. Get your test results within 15 min from the comfort of your home. Get your report through the App.

Intelligently Designed Tube

Filled with a solution that inactivates the virus

Tube converts into dropper for test accuracy

Unique QR Code

For reporting and traceability

Ensures that test kit is genuine

Safe Swab

Swab designed for easy sampling

Swab remains in tube and prevents bio-hazard

Disposable Bag

For easy and safe disposable along with domestic waste

Please read IP infringement disclaimer before any unauthorised use.

World's first high throughput Point of Care Testing Solution for Covid-19

CoviSwift™ is the world's first point of care high throughput solution for Covid-19, that can be used at small labs, in-hospital labs, airports, villages allowing gold standard high throughput testing anywhere. The solution comprises the CoviSwift™ assay and Compact-Q machines which process 16 samples within 40 minutes, which is approximately 4 times faster than the traditional method of RT-PCR testing while maintaining the gold standard accuracy.

Please read IP infringement disclaimer before any unauthorised use.

Swift Assay

Sample collection to results within 40 Mins

Multi-Gene Detection

CoviSwift™ COVID-19 S plus Rapid PCR kit gives the additional benefit of S gene detection.

Gold Standard Accuracy

CoviSwift™ is highly sensitive and specific for COVID-19 detection. (Gold standard RT PCR method)

Easy & Efficient Transportation

- CoviSwift™ is intelligently designed for single use format eliminating inventory management
- Eliminating the need of cold storage and shipment at room temperature thus enabling the need for cold storage and cold shipment.

Zero Contamination

CoviSwift's brilliantly designed for efficient operation and eliminating contamination concerns.

Pipette Free Operation

CoviSwift™ completely eliminates the need of pipette and technical experts as well as requirement of pipette and liquid handling

CoviSwift™ Delivers

Rapid plug and play PoC real time PCR test

First ever 4 gene detection in Rapid RT-PCR - for High sensitivity, High Specificity and accuracy

Inclusion of Housekeeping gene for stringent quality control and elimination of false negatives

Rapid detection of S-Genes mutation as a proxy marker for variants of concern before sequencing.

CoviSwift™ Rapid RT-PCR is true RT-PCR unlike LAMP or other Rapid tests - thus no loss of sensitivity but with the convenience of Rapid protocol

High throughput (16 samples within 40 min)

Everything including from swab to results - Pipette free handling

Plug and play instrument can be installed anywhere with super ease

Expert free operation - Just a nasal swab and drop addition for quick and accurate reports

Enabled with MylabCares auto reporting software eliminating the need of experts for analysis and interpretation

24 Month Shelf Life

Superfast RT-PCR Testing. Delivered.

Get Faster HPV, MTB & Covid-19 Test
Results With High-speed Mobile Testing Lab.

Approved by ICMR and NABL
for COVID-19 testing

VAN FEATURES

Features

Monocoque Body made entirely of pressed steel panel

Fused together in a robotic environment

6th Gen C . E. D, Full Body Immersion process of primer application

Car like paint surface finish

Robotic Top Coat Paint Application

200mm Ground Clearance at Rear Differential

Benefits

Lowest body maintenance cost

Higher power to weight ratio

Superior fuel efficiency

Superior Ride Quality

Longest Body Life

Unmatched Durability

Unmatched Durability

Aesthetic looks

High Resale Value

Unmatched ability to negotiate rough road conditions

Advantages

Outstanding structural strength

No separate Chassis

Lightweight, Low NVH

High precision joinery

Structural Integrity for years

Highest Corrosion Resistance

Best in class rust protection

No damage to under parts on rough roads and flooded conditions
